FIX TO WALL USING SUITABLE FIXING FOR WALL CONSTRUCTION (NOT INCLUDED)

IMPORTANT - the supplied fixing kit must be used, under no circumstances should any fireplace be installed without the mechanical fixings supplied. Whist adhesives such as No – Nails or similar can be used, this must only be in addition to the supplied fixings and not instead of.

Prior to installation

Ensure the construction of the wall is sufficient to support the surround. This must be checked with a spirit level for flatness and free from obstructions. If you are unsure about the suitability of the wall structure, seek advice from a building surveyor or architect.

Appropriate wall fixings, suitable wall plugs and screws, must be used for securing the brackets to the walls.
